

EMS Textbooks in Mathematics

EMS Textbooks in Mathematics is a book series aimed at students or professional mathematicians seeking an introduction into a particular field. The individual volumes are intended to provide not only relevant techniques, results and their applications, but afford insight into the motivations and ideas behind the theory. Suitably designed exercises help to master the subject and prepare the reader for the study of more advanced and specialized literature.

Jørn Justesen and Tom Høholdt, *A Course In Error-Correcting Codes*

Markus Stroppel, *Locally Compact Groups*

Peter Kunkel and Volker Mehrmann, *Differential-Algebraic Equations*

Dorothee D. Haroske and Hans Triebel, *Distributions, Sobolev Spaces, Elliptic Equations*

Thomas Timmermann, *An Invitation to Quantum Groups and Duality*

Marek Jarnicki
Peter Pflug

First Steps in Several Complex Variables: Reinhardt Domains

European Mathematical Society
