PRESS

EMS Textbooks in Mathematics

The *EMS Textbooks in Mathematics* is a series of books aimed at students or professional mathematicians seeking an introduction into a particular field. The individual volumes are intended not only to provide relevant techniques, results, and applications, but also to afford insight into the motivations and ideas behind the theory. Suitably designed exercises help to master the subject and prepare the reader for the study of more advanced and specialized literature.

Previously published in this series:

Peter Kunkel and Volker Mehrmann, *Differential-Algebraic Equations*
Markus Stroppel, *Locally Compact Groups*
Dorothee D. Haroske and Hans Triebel, *Distributions, Sobolev Spaces, Elliptic Equations*
Thomas Timmermann, *An Invitation to Quantum Groups and Duality*
Oleg Bogopolski, *Introduction to Group Theory*
Marek Jarnicki and Peter Pflug, *First Steps in Several Complex Variables: Reinhardt Domains*
Tammo tom Dieck, *Algebraic Topology*
Mauro C. Beltrametti et al., *Lectures on Curves, Surfaces and Projective Varieties*
Wolfgang Woess, *Denumerable Markov Chains*
Eduard Zehnder, *Lectures on Dynamical Systems*
Andrzej Skowroński and Kunio Yamagata, *Frobenius Algebras I*
Piotr W. Nowak and Guoliang Yu, *Large Scale Geometry*
Joaquim Bruna and Juliá Cufí, *Complex Analysis*
Eduardo Casas-Alvero, *Analytic Projective Geometry*
Fabrice Baudoin, *Diffusion Processes and Stochastic Calculus*
Olivier Lablée, *Spectral Theory in Riemannian Geometry*
Dietmar A. Salamon, *Measure and Integration*
Andrzej Skowroński and Kunio Yamagata, *Frobenius Algebras II*
Jørn Justesen and Tom Høholdt, *A Course In Error-Correcting Codes* (2nd ed.)
Bogdan Nica, *A Brief Introduction to Spectral Graph Theory*
Timothée Marquis, *An Introduction to Kac–Moody Groups over Fields*
Alessio Figalli and Federico Glaudo, *An Invitation to Optimal Transport, Wasserstein Distances, and Gradient Flows*
Piermarco Cannarsa and Filippo Gazzola, *Dynamic Optimization for Beginners*

This book is a revised English translation of the French original published as
Alain Bretto, Alain Faisant, François Hennecat, *Éléments de théorie des graphes*, deuxième édition revue et augmentée, Collection IRIS, Lavoisier, Paris, 2018

Translated by Leila Schneps, Paris.

2020 Mathematics Subject Classification: Primary 05-01, 05Cxx; Secondary 08Axx, 20-XX, 54-XX

Keywords: graph theory, hypergraph theory

ISBN 978-3-98547-017-4, eISBN 978-3-98547-517-9, DOI 10.4171/ETB/24
