The *Memoirs of the European Mathematical Society* publish outstanding research contributions in individual volumes, in all areas of mathematics and with a particular focus on works that are longer and more comprehensive than usual research articles.

The collection's editorial board consists of the editors-in-chief of the *Journal of the European Mathematical Society* and the *EMS Surveys in Mathematical Sciences*, along with editors of book series of the publishing house of the EMS as well as other distinguished mathematicians.

All submitted works go through a highly selective peer-review process.

Previously published in this series:

- J.-M. Delort, N. Masmoudi, *Long-Time Dispersive Estimates for Perturbations of a Kink Solution of One-Dimensional Cubic Wave Equations*
- G. Cotti, *Cyclic Stratum of Frobenius Manifolds, Borel–Laplace  $(\alpha, \beta)$ -Multitransforms, and Integral Representations of Solutions of Quantum Differential Equations*
