Münster Lectures in Mathematics

Edited by Christopher Deninger and Linus Kramer (Universität Münster)

The *Münster Lectures in Mathematics* report on recent developments in mathematics. Material considered for publication includes monographs and lecture notes or seminars on a new field or a new angle at a classical field.

Previously published in this series:

D.-V. Voiculescu, N. Stammeier, M. Weber (Eds.), *Free Probability and Operator Algebras*

F. Jahnke, D. Palacín, K. Tent (Eds.), *Lectures in Model Theory*
