Foreword	vii
Introduction to Teichmüller theory, old and new, VI <i>by Athanase Papadopoulos</i>	1
Chapter 1. Alexander Grothendieck <i>by Valentin Poenaru</i>	31
Part A. The metric and the analytic theory	
Chapter 2. On Grothendieck’s construction of Teichmüller space <i>by Norbert A’Campo, Lizhen Ji, and Athanase Papadopoulos</i>	35
Chapter 3. Null-set compactifications of Teichmüller spaces <i>by Vincent Alberge, Hideki Miyachi, and Ken’ichi Ohshika</i>	71
Chapter 4. Mirzakhani’s recursion formula on Weil–Peterson volume and applications <i>by Yi Huang</i>	95
Part B. The group theory	
Chapter 5. Rigidity phenomena in the mapping class group <i>by Javier Aramayona and Juan Souto</i>	131
Chapter 6. Harmonic volume and its applications <i>by Yuuki Tadokoro</i>	167
Chapter 7. Torus bundles and 2-forms on the universal family of Riemann surfaces <i>by Robin de Jong</i>	195
Part C. Representation theory and generalized structures	
Chapter 8. Cubic differentials in the differential geometry of surfaces <i>by John Loftin and Ian McIntosh</i>	231

Chapter 9. Two-generator groups acting on the complex hyperbolic plane by <i>Pierre Will</i>	276
Chapter 10. Configuration spaces of planar linkages by <i>Alexey Sossinsky</i>	335
Chapter 11. Quasiconformal mappings on the Heisenberg group: An overview by <i>Ioannis D. Platis</i>	375
Part D. The Grothendieck–Teichmüller theory	
Chapter 12. Actions of the absolute Galois group by <i>Norbert A’Campo, Lizhen Ji, and Athanase Papadopoulos</i>	397
Chapter 13. A primer on dessins by <i>Pierre Guillot</i>	437
Chapter 14. Hypergeometric Galois actions by <i>A. Muhammed Uludağ and İsmail Sağlam</i>	467
Chapter 15. A panorama of the fundamental group of the modular orbifold by <i>A. Muhammed Uludağ and Ayberk Zeytin</i>	501
Chapter 16. On Grothendieck’s tame topology by <i>Norbert A’Campo, Lizhen Ji, and Athanase Papadopoulos</i>	521
Part E. Sources	
Chapter 17. Some historical commentaries on Teichmüller’s paper <i>Extremale quasikonforme Abbildungen und quadratische Differentiale</i> by <i>Reiner Kühnau</i>	537
Chapter 18. Complete solution of an extremal problem of the quasiconformal mapping by <i>Oswald Teichmüller</i>	547
Chapter 19. A commentary on Teichmüller’s paper <i>Vollständige Lösung einer Extremalaufgabe der quasikonformen Abbildung</i> by <i>Vincent Alberge and Athanase Papadopoulos</i>	561
Chapter 20. On extremal problems of conformal geometry by <i>Oswald Teichmüller</i>	569

Chapter 21. A commentary on Teichmüller's paper <i>Über Extremalprobleme der konformen Geometrie</i> by <i>Norbert A'Campo and Athanase Papadopoulos</i>	597
Chapter 22. A displacement theorem of quasiconformal mapping by <i>Oswald Teichmüller</i>	605
Chapter 23. A commentary on Teichmüller's paper <i>Ein Verschiebungssatz der quasikonformen Abbildung</i> by <i>Vincent Alberge</i>	613
