

Index

angle, 49, 89, 113

Bellman
– candidate, 20
– domain, 15
birdie, 50, 90

chords, 23
condition
– conditions on f , 17, 18
– leaf-root condition, 94
– non-degeneracy force condition, 93
cup, 32
– origin, 32
– standard candidate, 32
– cup equation, 31

delivery curve, 99
differentials, 33
domain
– chordal domain, 30, 76, 82, 111
– flow of chordal domains, 79
– linearity domain, 23, 49
– tangent domain, 27, 102

equation
– balance equation, 75, 81
– cup equation, 31
essential root, 16
essentially critical points, 96
extremal segment, 19

fence, 27
fixed boundary, 14
foliation, 20
force
– function, 77
– monotone force flow, 80
free boundary, 14

graph, 65
– admissible graph, 94
– simple graph, 71

– smooth graph, 96

incoming node, 117
induced convex set, 23
induction steps, 71

locally concave function, 18

Monge–Ampère equation, 20
monotonic rearrangement, 21
multibirdie, 58, 90, 116
multicup, 58, 83, 112
– closed multicup, 60, 111
multifigures, 56
multitrolleybus, 58, 87, 88, 116

optimizer, 21, 99
– optimizing sequence, 118
outgoing node, 117

solid root, 16
standard candidate
– cup, 32
– in a single chord, 53
– in a single tangent, 54
– in birdie, 52
– in multifigure, 57
– in trolleybus, 52

tangents, 23
test function, 20
trolleybus, 50, 84, 115
