

Preface

This volume contains the lecture notes of the CIMPA School *K-theory and Operator Algebras* in 2025. The school was held from July 28 to August 1 at the National University of La Plata as the first in a series of schools of the Centro de Matemática de La Plata (CMaLP), and from August 4 to August 8 at the University of Buenos Aires as the thirteenth Santaló Winter School, a series jointly organized by the Mathematics Department and the Santaló Institute for Mathematical Research (IMaS).

We are grateful to our sponsors, including CIMPA, the Committee for developing countries of the International Mathematical Union, the Foundation Nagoya Mathematical Journal, the K-theory Foundation, the School of Exact Sciences and the School of Exact and Natural Sciences of the Universities of La Plata and Buenos Aires and their Foundations and Mathematics Departments, the Centro de Matemática de La Plata (CMaLP), and the Instituto de investigaciones matemáticas Luis Santaló (IMaS). We also thank all the speakers who covered their expenses from their own funds. Special thanks go to Enrique Pardo who acted as CIMPA coorganizer, and to CIMPA officer Clementa Alonso.

Buenos Aires and La Plata, July 2026
