

Corrigendum to “Lagrangian cobordisms and Lagrangian surgery”

Jeff Hicks

Abstract. This corrigendum draws attention to a missing attribution in [Comment. Math. Helv. 98, 509–595 (2023)].

We acknowledge and rectify a missing attribution in [1]. In the introduction to the paper, the 0-surgery of Lagrangian submanifolds is attributed to Polterovich ([3]). However, Polterovich’s paper was inspired by the work of Lalonde and Sikorav [2], where they construct the 0-surgery handle for surfaces.
