

Erratum to
“Nonexistence of minimizers for a nonlocal perimeter
with a Riesz and a background potential”

FUMIHIKO ONOUE (*)

On [1, p. 115], the second assumption for K in (K4) should read

$$|x|^{-(N+s-1)} \leq |x|K(x) \leq (1 + \varepsilon)^{-(N+s-1)} \quad \text{for any } |x| \geq 1 + \varepsilon.$$
