“Decay of solutions of some nonlinear equations”

by Mohammed Aassila

[Portugaliae Mathematica, Vol. 60, No. 4 (2003), 389–409]

We have found recently that this paper was plagiarized from work by Liping Liu and Ming Mei, presented in their paper entitled “A better asymptotic profile of Rosenau-Burgers equation”, published in *Applied Mathematics and Computation* 131 (2002), pp. 147–170. We very much regret this error and offer our apologies to the authors.
